Addressing and managing disputes in context

In a dynamic environment involving ever-changing economic and geopolitical circumstances, we understand the challenges inherent in international disputes. While strong advocates, we possess the cultural awareness necessary to achieve the goals of our clients, whether multinational corporations, investors or individuals.

Our Experience

- Represented a major motion picture producer in an arbitration against a German motion picture distributor that breached the terms of its distribution agreement by, among other things, failing to pay the US\$ 4 million minimum guaranty for the right to distribute a well-regarded theatrical motion picture in its territories.
- Defended a consortium of German insurance companies, who acted as guarantors for the completion of a Canadian-produced motion picture, in an arbitration commenced by the production financier of the motion picture, which claimed that the insurers were obligated but refused to perform under the completion guaranty.
- Served as lead arbitration counsel for claimant Asian pharmaceutical company in licensing and marketing dispute with US-based multinational pharmaceutical company before the Singapore International Arbitration Centre; obtained eight-figure arbitral award for client, as well as substantial award of legal fees.*
