

Appendix 1

Bitcoin's growing energy problem: 'It's a dirty currency',
<https://www.ft.com/content/1aecb2db-8f61-427c-a413-3b929291c8ac>.

Non-renewables dominate mining

Though 76% of surveyed miners say they use renewables as part of their mix...

... only 39% of total energy consumption comes from renewables

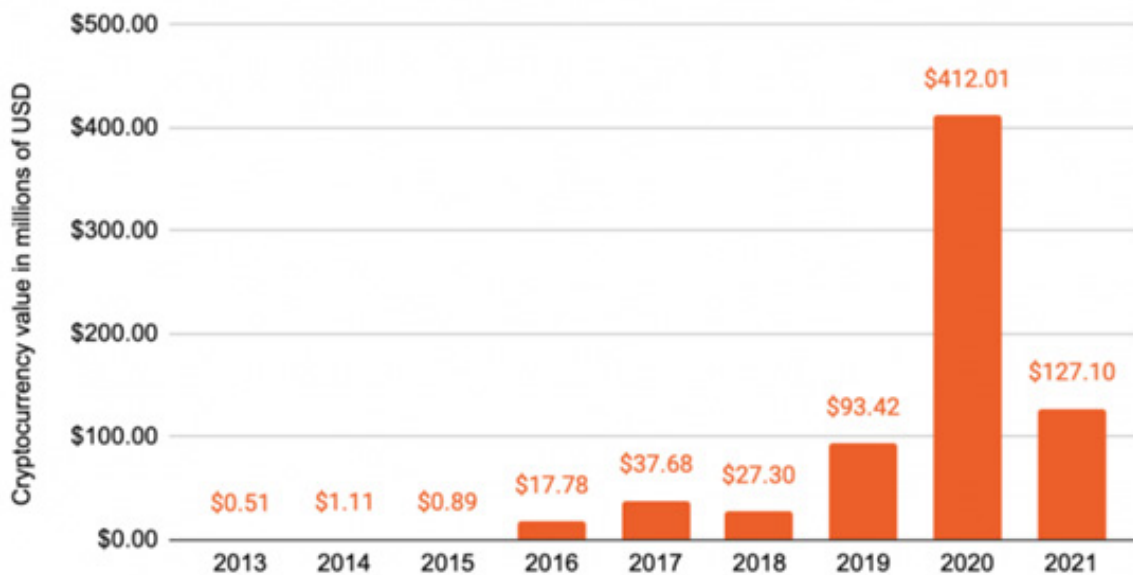

Survey data were collected from 280 entities across 59 countries
