

Legal Symposium 2019

Presented by the International Air Transport Association (IATA)

March 6–8, 2019

Alan Meneghetti, a partner in the Corporate practice, will participate in the “Data privacy and emerging technologies aimed at enhancing the passenger experience” panel discussion at 11:30 a.m. on Thursday, March 7. Panelists will discuss privacy challenges that arise in the wake of new technology aimed to enhance the passenger experience, such as artificial intelligence, machine learning and biometrics. They will also discuss what it means for the travel industry and how to find a balance between enhancing the passenger experience and protecting passenger privacy.
