

Advanced Commercial Real Estate Leases

Practical information on negotiating and enforcing commercial leases

September 18–19, 2006

Partner Douglas L. Noren will serve as a panelist in the session “Negotiating Key Lease Provisions” on Monday, September 18 at 8:45. This seminar will provide insightful, practical information useful to real estate lawyers, brokers, lenders, landlords, and tenants in negotiating and enforcing commercial leases. Basic concepts are explained to assure that those with less experience are not left behind, but the panel discussion and presentations quickly extend into more sophisticated nuances, often providing specific suggestions for lease provisions and ways to handle particular issues that frequently arise in negotiations and during the tenancy. The use of examples allows participants to apply the concepts to real world situations, based on the knowledge of experienced real estate lawyers, leasing agents, and other professionals in this area.
