

Best Practices for Preventing Banking Fraud in 2013

Presented by The Knowledge Group, LLC

July 25, 2013

Given today's technologically advanced environment with all the tools available to criminals, bank fraud continues to become easier and remains a rising issue that financial institutions need to confront head on. Fraud has evolved from just forging counterfeit checks and currency, and now includes a different set of fraudulent vehicles, such as debit/credit cards, electronic banking and even identity theft fraud. Partner Michael Rosensaft will join a panel of key thought leaders and practitioners to present this two-hour live webcast addressing some of the most critical issues with respect to bank fraud. Topics include:

- Utilizing positive pay and other prevention tools
- Identifying fraudulent transactions and bank fraud schemes
- Building and maintaining strong relationships with your frontline staff
- Combating bank fraud with help from law enforcement agencies
- Best practices in preventing bank fraud and application of risk assessment techniques
- Best practices for running an effective bank fraud department
- Insights and regulatory updates
