March 2016

Regulatory and Compliance

Minimizing Stark Law Execution Risks

This presentation covers the ethical and professional obligations of in-house legal counsel to provide competent representation regarding Stark Law under the Illinois Rules of Professional Conduct. It also includes:

- fair market value pitfalls;
- practical safeguards against non-compliant arrangements;
- physician group practice structures;
- Stark Law implications of losses and subsidies;
- consultant exception minefields;
- recent Stark Law changes; and
- ethical quandaries for in-house counsel.

An Advanced Look at the New NPDB Guidebook

This webinar presentation provides practical insights and recommendations on how to comply with National Practitioner Data Bank (NPDB) reporting and querying requirements that were issued in its new and final Guidebook. It also examines how the NPDB interprets and intends to enforce the various Data Bank standards, among other areas, as well as what actions constitute an "investigation" for purpose of reporting.

Making the Most of the New IRS Management Contract Safe Harbors

This webinar highlights how the Internal Revenue Service (IRS) has expanded the management contract safe harbors in a way that allows 501(c)(3) health care organizations greater flexibility in structuring management contracts with private and for-profit entities. The presentation also addresses the application of this guidance and explores the ways in which hospitals and health systems can take advantage of the new opportunities that have arisen.

In addition, the webinar addresses:

- Background of the safe harbors: evolution, legal context and major principles issued in Notice 2014-67;
- Application of the safe harbors: examples and analysis;

- Work-arounds when the safe harbors don't fit: generic exceptions in the law, customized exceptions in IRS rulings and new rules on the horizon; and
- Interfacing with the IRS: obtaining a ruling, defending an audit, and negotiating a settlement.

The 60-Day Rule: When Does the Clock Start Ticking After the Kane Ruling

This presentation highlights:

- the 60-Day Rule for reporting and refunding overpayments and its statutory requirements;
- types of "overpayments";
- the proposed rule for reporting and returning overpayments;
- the Kane ruling and when is an overpayment "identified"; and
- implications for providers, including practical tips for reducing enterprise risk.

Provider Alignment Opportunities: When a Merger Is Not a Viable Option

The webinar provides an overview of transaction options and their legal/business pitfalls to spur strategic thinking by providers, investors and their legal counsel.

In addition, it addresses the following topics:

- reasons to consider an alternative alignment model;
- specific models, including joint operating companies, vertical integration plays, population health management initiatives and retail medicine strategies;
- financial and legal considerations; and
- the importance of a common vision and the need for upfront agreement on a strategic plan.

Employment Issues

Employment Challenges in Medical Practices

The “Employment Challenges in Medical Practices: Ten Tips to Minimize Liability and Better Manage Your Workforce” webinar examines topics such as:

- employee handbooks;
- employee complaints;
- hiring and firing employees;
- age-based policies;
- employee classification and pay;
- independent contractors and joint employers; and
- employment issues in acquisitions.

Hospital/Physician Relations

[Questioning Discoverable Data In Negligent Credentialing Suits](#)

[Utilizing Proctors for Competency Evaluations](#)

ACO/CIN Provider Denials and Terminations: Procedural Protections, Immunities and Databank Reporting

This presentation examines common challenges faced in physician terminations, including:

- clinical networks and Accountable Care Organizations (ACO) questions regarding how to terminate substandard or under-performing practitioners while limiting risk of antitrust, civil rights or state court litigation;
- whether the federal and state privileges and immunities that protect hospital privileging actions extend to ACOs and CINs (Clinically Integrated Networks);
- should ACOs/CINs elect to participate in the Databank reporting system and gain the immunity protection of the Healthcare Quality Improvement Act, and do the risks, headaches and cost outweigh the potential benefits; and
- if termination for failure to achieve quality metrics or comply with clinical protocols qualify as peer review.

Disruptive, Aged & Impaired Physicians Legal Updates

This presentation focuses on defining what is disruptive and impaired behavior, in addition to:

- main impediments to addressing unprofessional behavior;
- components of successful policies;
- legal standards;
- joint commission and bylaw standards;
- data bank and state reporting requirements;
- negligent credentialing/malpractice issues;
- confidentiality and HR employment issues;

- after-care issues; and
- how to respond to third-party inquiries.

Final Medicare Medical Staff Conditions of Participation: What Should Be in Your Bylaws

This presentation examines information from the Centers for Medicare & Medicaid Services (CMS) and its impact on:

- hospital governing boards;
- which practitioners can be appointed as members of hospital medical staffs;
- options to create a single, unified and integrated medical staff in a multi-hospital system;
- hospital board and staff interactions;
- medical staff voting processes;
- options to create a separate medical staff;
- serving different patient populations and other unique circumstances; and
- who can order hospital outpatient services.

Patient Safety Organizations

Overview of Patient Safety Act

This webinar presentation is the first in the “Patient Safety Organizations: What Every Health Care Provider Needs to Know” webinar series. The presenters address the key principles, requirements, benefits and scope of protections provided under the Patient Safety Act.

To view the presentation slides, click [here](#).

PSO Standards Applied to Real-World Scenarios

This second installment in the “Patient Safety Organizations: What Every Health Care Provider Needs to Know” webinar series examines how the PSO standards and protections apply to real-world patient scenarios.

To view the presentation slides, click [here](#).

Discussion of PSO Court Cases and the Litigation Lessons Learned

Third in the “Patient Safety Organizations: What Every Health Care Provider Needs to Know” webinar series, this presentation addresses how to maximize protections and defend against legal challenges brought by plaintiff attorneys and other third parties.

To view the presentation slides, click [here](#).

PSO Update and MCCM Risk Management Demonstration, Including the New PSO Module

This presentation provides an overview of patient safety organizations (PSOs) and reviews current cases that are setting new legal precedents regarding the discoverability of patient safety work product.

To view the presentation slides, click [here](#).

Optimizing Health System Privilege and Confidentiality Protections and Improving Patient Care by Participating in a Patient Safety Organization

This webinar presentation highlights the following patient safety organization topics:

- the value proposition for health systems and/or affiliated providers when participating in a PSO;
- how to structure health care systems, clinically integrated networks and other affiliated providers in order to benefit from Patient Safety Act protections; and
- building a Health System Patient Safety Evaluation Structure (PSES) to support a culture of safety and improved patient safety outcomes.
