What issues will drive IT management in 2008? Join senior IT executives from **Kraft Foods, U.S. Cellular, DePaul University, Oracle** and others for critical insights and predictions on the industry and their own organizations. We'll also explore corporate buying intentions, trends in IT innovation, the outlook for web services, telecommunications, applications development, and more! This event is designed for CIOs, senior IT executives, IT department heads, and senior vendor executives.
