

### **List of Patient Safety Act Legal and Consulting Services**

Set forth below is a non-exclusive list of legal and consulting services I have provided to PSOs and providers since the Patient Safety Final Rule became effective in January, 2009.

1. Assist organizations in obtaining AHRQ certification and recertification including responses for certification application along with development of required policies
2. PSES policy development and review
3. In-person or remote educational programs to PSOs, governmental agencies, provider workforce members and others accessing PSWP
4. In-person or remote educational programs to in-house and defense attorneys
5. Litigation representation of providers or support to defense attorneys in response to PSWP discovery demands
6. Assistance in responding to demands for PSWP from state and/or federal governmental agencies
7. Legal, business and practical guidance and consultations as needed
8. Provide legal, regulatory and related developments affecting PSES policies and compliance with the Patient Safety Act.
9. Preparation of amicus briefs in state or federal courts and assisting defense attorneys in the preparation of trial and appellate court pleadings
